

Please reject the NAB's petition 04-160 and support XM's ability to provide my XM Instant Traffic & Weather. I benefit from and enjoy listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Do the right thing and turn down the lobbyists and there big bags of campaign contributions and start spending your time worrying about real issues.
